# GUTES DESIGN MIT GUTEN GEWISSEN

Sedex®

Gutes Design ist Schönheit und eine perfekte Form. Schönheit ist für unser Leben essentiell, sie ist ein Stück Kultur, sie ist sinnstiftend und macht die Welt zu einem besseren Ort. koziol Design ist immer zeitgemäß und kreativ und viele sagen erstaunt: Auf sowas muss man erstmal kommen! Ja, muss man und weil wir das so gut können, sind auch viele Produkte preisgekrönt. Mittlerweile über 100mal.

Das gute Gewissen steckt in jedem Produkt. koziol arbeitet seit über 90 Jahren aus innerer Überzeugung nach streng nachhaltigen Grundsätzen. Unsere Produkte sind langlebig, was Form, Material und Funktion angeht. Sie sind ökologisch wertvoll, denn sie sind recycelbar, lebensmittel-echt, schadstofffrei und unverwüstlich. Sie werden nachhaltig und energieeffizient in Deutschland hergestellt und besitzen alle gesetzlichen Nachweise wie Zertifikate und Konformitätserklärungen.

Alles zusammen macht die Marke koziol zu dem, was sie ist: einzigartig.

## GOOD DESIGN WITH A CLEAR CONSCIENCE.

Good design is beautiful. Good design is essential to our lives. It is a piece of culture, it is meaningful, and it makes the world a better place. koziol design is current, creative and makes people ask: How did you even think of that? Well, we did, and for that we have been awarded many times. Over 100 to be exact.

A good conscience in every product. koziol has been acting with integrity for over 90 years on the basis of our own convictions and adhering to strict sustainability principles. Our products are long-lasting in terms of shape, material and function. They are ecologically valuable because they are recyclable, food-safe, non-toxic and unbreakable. They are produced sustainably and energy-efficiently in Germany and of course, according to the highest quality standards including all necessary certificates.

All of these things come together to make koziol one thing: Unique.

## WARUM MACHEN WIR DAS?

### WHY DO WE DO IT?

Wir glauben daran, dass schöne Produkte die Welt lebenswerter machen. Wir haben die Fähigkeiten einzigartige Produkte zu entwickeln und herzustellen. Das macht glücklich.

We believe that beautiful products make the world a better place to live. We have the ability to develop and manufacture unique products for everyday life. That makes us happy.

## WIE MACHEN WIR DAS?

### HOW DO WE DO IT?

Wir realisieren unsere Ideen und produzieren mit unserer eigenen Technologie in Erbach, Odenwald. Gutes Design mit gutem Gewissen.

We realize our ideas and produce with our own technology in Erbach, Odenwald. Good design with a good conscience.

## WAS STELLEN WIR HER?

### WHAT DO WE MAKE?

Schöne, zeitgemäße Produkte zum Wohnen und Leben, die glücklich machen.

Beautiful, contemporary products for home and living, which brings happiness into our lives. Lovely items for a better world.

# CUSTOMIZED DESIGN MADE IN GERMANY

## IHR LOGO

Ein individueller Aufdruck macht jedes Produkt zu Ihrem ganz persönlichen Werbeartikel. Wir drucken für Sie ein- bis vierfarbig im Digital-, Tampon- oder Siebdruck.

## YOUR LOGO

Custom prints can transform any product into a truly personal gift. We offer digital, pad or screen printing.

## IHRE FARBE

Ihre CI-Farbe ist nicht dabei? Kein Problem. Wir fertigen für Sie jedes Produkt in Ihrer persönlichen Wunschfarbe. Bei vielen Produkten können sowohl transparente als auch opake Farbtöne realisiert werden. Ab 1.000 Stück, Small Budget Artikel ab 2.500 Stück.

## YOUR COLOR

Unable to find your corporate color? Not a problem! We can make any product in the color of your choice, and both transparent and solid versions are available. Minimum order: 1000 units; small budget items starting at 2500 pieces.

## IHRE VERPACKUNG

Damit der Auftritt perfekt wird, sorgen wir für das richtige Drumherum mit Ihrer eigenen Verpackung. Alle Standardverpackungen von koziol sind individualisierbar. Bei der Entwicklung und Umsetzung von Sonderverpackungen sind unsere Spezialisten gerne behilflich.

## YOUR PACKAGING

To ensure that everything is perfect, we create the look that ties it all together. koziol can customize any standard packaging solution. Our packaging and graphic experts will be happy to help you to develop your own specialized concept.

## DAS BESONDERE

Es sind die Details, die den Unterschied machen. Das passende Zubehör gibt den Produkten den letzten Schliff. Eine individuelle Preisauskunft erhalten Sie gerne auf Anfrage.

## THE EXTRA SOMETHING SPECIAL

That little extra lends products the finishing touch. We will be happy to help you to develop your own specialized concept. Prices on request.

# 3D INDIVIDUALISIERUNG

Individueller geht es nicht: Dank Wechseleinsatz können Logos, Schriften oder Bilder bereits ab 3.000 Stück als haptisches 3D-Motiv direkt in das Produkt eingearbeitet werden. Die Werbebotschaft ist so untrennbar mit dem Artikel verbunden, kann sich weder abnutzen noch abgewaschen werden. Sieht toll aus und fasst sich gut an. Lunchboxen, Thermobecher, Löffel und Brettchen sind bereits mit der neuen Formentechnik ausgestattet und warten gespannt auf individuelle Designs.

## 3D INDIVIDUALIZATION

It doesn't get any more individual: thanks to an interchangeable insert, your motif can be directly incorporated into products as a 3D motif. This way, the advertising message is inseparable from the product – it cannot be worn or washed of. Looks great and feels great. Lunchboxes, insulated cups, spoons and snack boards are already equipped with the newest molding technology and are anxiously awaiting new designs. Text, logo or picture motifs – almost everything is possible.

### »HAPPY BOARDS

Wechseleinsatz ab 3.000 Stück – Interchangeable insert from 3000 pieces

### »BASIC

Wechseleinsatz ab 3.000 Stück – Interchangeable insert from 3000 pieces

### »HAPPY SPOONS

Wechseleinsatz ab 5.000 Stück – Interchangeable insert from 5000 pieces

»PASCAL COLLECTION  
Design by koziol werksdesign

## DRUCK

Ein individueller Aufdruck macht jedes Produkt zu Ihrem ganz persönlichen Werbeartikel. Wir drucken für Sie ein- bis vierfarbig in folgenden Techniken:

**Siebdruck** Im Siebdruckverfahren sind auch größere Flächen bedruckbar, sowohl flach als auch zylindrisch. Bei einigen Artikeln sind allerdings nur 1-farbige Drucke möglich. Preis auf Anfrage.

**Tampondruck** Mit diesem schnellen und kostengünstigen Druckverfahren lassen sich Logos bis zu vier Farben auf unebener Oberfläche drucken. Artikel aus etwas weicheren Materialien werden produktschonend vorbehandelt.

## PRINT

Custom imprints can transform any product into a truly personal gift.

We offer up to four colors using pad or screen printing.

**Screen printing** The screen printing technique can be used to print on larger surfaces that are either flat or cylindrical. In some cases, depending on the product, only single-color printing is possible. Prices on request.

**Pad printing** Using this fast and economical process, logos of up to four colors can be printed on uneven surfaces.

However, products made of soft materials must be treated in advance.

# LEISTUNGEN SERVICES

## IN-MOULD LABELING

Mit der In-Mould-Labeling Technologie bringen wir hochaufgelöste Bilder und Grafiken dauerhaft auf Ihr Produkt. Bei dieser Methode wird eine bedruckte Folie beim Spritzgießen unlösbar mit dem Produkt verbunden. Man kann aus einer Fülle von Materialien, Druckfarben und Lacken auswählen. Dazu ist das Verfahren umweltfreundlich, da Folie und Produkt aus demselben Material bestehen und vollständig recycelt werden können.

## IN-MOULD LABELING

With in-mould labeling technology, we bring high-resolution images and graphics permanently onto your product. In this method, a printed film is applied to the product during injection molding. You can choose from a range of materials, print colors and finishes. The process is environmentally friendly as the film and product are made of the same material and can be fully recycled.

## AFTERMOULD-LABELING

Das Aftermould-Labeling ist für alle Produkte mit planer Oberfläche geeignet und eine ausdrucksstarke Möglichkeit flächige Motive in hochwertiger Fotoqualität aufzubringen. Dabei wird ein Foliendruck abriebfest auf das Produkt laminiert. Dazu ist das Verfahren umweltfreundlich, da Folie und Produkt aus demselben Material bestehen und somit vollständig recycelt werden können.

## AFTERMOULD-LABELING

Aftermold labeling is suitable for all products with a flat surface and is an expressive way of applying two-dimensional motifs in excellent photo quality.

A printed film is laminated directly onto the product, making it exceptionally resistant to abrasion. This process has the added benefit of being environmentally friendly, as both film and product are made of the same material and thus can be completely recycled.

## LASERGRAVUR

Die Lasergravur ist die perfekte Methode unsere Produkte bereits ab 1 Stück zu individualisieren. Es können damit Logos oder Embleme graviert werden, ebenso sind Personalisierungen mit Namen möglich.

## LASER ENGRAVING

Laser engraving is the perfect way to customize our products starting at just one piece. Products can be engraved with logos, emblems, and names.

### Light

Dimensions **180x180x280 mm**

individual outer lampshade foil from 10 pcs

single in gift bag  
1 bag per carton

Light to go. This light accompanies you wherever illumination is needed. The integrated powerbank delivers up to 14 hours of light and can handily be charged with a USB cable. Ideal for places where you want to unplug like in the backyard or on the balcony. The light can be customized with a printed lampshade and is a surprising eyecatcher on the table, in the lounge and of course at parties and events.

CONNECT was developed together with professionals and takes on the traditional shape of the coffee mug. The result is a light and unbreakable cup for every day, and with its slim shape fits comfortably in the hand. The expressive ribbed design protects against hot contents and also works practically as a stacking aid. Special emphasis was also placed on the inside of the cup: a convex bottom guarantees ultimate coffee enjoyment.

## IN-MOULD LABELING

Mit der In-Mould-Labeling Technologie bringen wir hochauflösende Bilder und Grafiken dauerhaft auf Ihr Produkt. Bei dieser Methode wird eine bedruckte Folie beim Spritzgießen unlösbar mit dem Produkt verbunden. Man kann aus einer Fülle von Materialien, Druckfarben und Lacken auswählen. Dazu ist das Verfahren umweltfreundlich, da Folie und Produkt aus demselben Material bestehen und vollständig recycelt werden können.

## IN-MOULD LABELING

With in-mould labeling we bring high-resolution images and graphics permanently onto your product. In this method, a printed film is applied to the product during injection molding. You can choose from a range of materials, print colors and finishes. The process is environmentally friendly as the film and product are made of the same material and can be fully recycled.

Print runs from 100 upwards

In-Mold Labeling on request

bulk packed  
100 pcs per carton

MAXX is the best. A true superlative, especially in the cupboard, as it is the first mug with a handle that is stackable. The material insulates very well, keeping hot drinks at the perfect temperature for longer. MAXX is extremely robust, thereby particularly suitable for everyday use as well as outdoor activities, traveling and sports. The curved shape feels good in the hand and this original mug is made out of environmentally-friendly, recyclable plastic – making it lightweight, long-lasting and guaranteed BPA free. 90% less energy is used in the production process compared to a mug made out of ceramic or porcelain. Simply our favorite mug.

The innovation push for caffeine fixes: mobile morning people will go for the CLICK coffee-to-go cup as the ideal way to start their day. The cool new tilting lid is cleverly designed as an on-off switch, so there's no spilling in the subway crush. The attractive ribbed structure on the outside makes it easier to grip while affording insulation to heat-sensitive hands. And for those who would rather face the gridlock on their own four wheels, CLICK is designed to fit all standard cupholders in cars, too.

Print runs from 100 upwards

single in gift box  
15 pcs per carton

3692

PU 15

The most beautiful salad bowl known to man, in a compact size that's just made for smaller households and smaller portions – and naturally for every day! The sweeping shape makes each meal a feast for the eyes, and the integrated servers are always on hand to further enhance the look of this design icon.

### Salad bowl with servers 4l

Dimensions **402x288x200 mm**

Printsize app. **20x15 mm; 40x10 mm**

Print runs from 100 upwards

single in gift box,  
28 pcs per carton

LEAF will adorn every salad creation. It always goes for gold and even brings its own servers – which mimic the bowl's gentle contours and come in attractively contrasting colors. Despite its small footprint, the tall bowl offers plenty of room for green salads. The London designer Cairn Young created this elegant table companion which has so much appeal that it demands to be used every single day.

Printsize app. **15x15 mm; 12x12 mm**

Print runs from 100 upwards, ind. Inlay from 250 pcs

in PET Box with inlay  
48 pcs per carton

London-based designer Cairn Young has been fascinated with the Japanese art of wood joinery for years, developing a true obsession to nest, connect, assemble, and piece things together in an aesthetic and intelligent way himself. His latest inspiration was the egg – arguably the most perfect shape in the world. The mysterious object, just like a regular egg, reveals its true self only after opening. Simply lift the top half, and you have a functional and decorative salt and pepper shaker: Stable, easy to refill and undeniably unique.

## »SNAP 2.0

Design by koziol werksdesign

**Cutting Board**

Dimensions 492x278x8 mm  
Printsize app. 40x10 mm  
Print runs from 100 upwards

First cut, then fold. This archetypal cutting board now boasts a new folding function as one of its intelligent design features. It can be folded in the middle and its contents funneled safely into a bowl or saucepan. Thanks to its professional dimensions, SNAP 2.0 allows all the ingredients to be chopped, cut and collected in one place. What's more, it makes the perfect platform for slicing roasts and dividing up cakes as well. A large handle for easy gripping and lifting, a channeled rim that traps liquids and a knife-friendly surface make SNAP 2.0 a perfectly designed solution.

PU 32

Bread, snacks, fruit and even sandwiches are kept fresh and appetizing in the spacious lunchbox CANDY L. The clip closure is designed in such a way that the lunchbox cannot accidentally open during transport. The rounded shape feels smooth to the touch and ensures that it does not get caught going in and out of your bag or backpack. The box can be customized with high quality in-mold labeling. In this method, a printed film is applied to the product during injection molding. This process is particularly environmentally friendly as the film and product are made of the same material and can therefore be completely recycled.

Print runs from 100 upwards  
ind. Inlay from 250 pcs

 Set of 2 in Flowpack with inlay  
30 pcs per carton

You can't afford to second-guess safety, so why not call in the experts for your car? The service specialist HORST dependably measures treads in summer and winter, showing when it's time to "retire"! Ice-age YETI, by contrast, grabs the limelight by removing snow and ice from external mirrors. The dream team for cars that belongs in every glove compartment.

## »HORST

Designby Seventh Sense, Milano

### Tread Depth Gauge

Dimensions **80x45x17 mm**

Printsize app. **20x15 mm**

Print runs from 100 upwards, ind. Inlay from 250 pcs

 single in flowpack with inlay  
100 pcs per carton

**5189**  
PU 100

HORST instantly gauges whether tires have enough tread. The rubber man single-handedly shows recommended tread depths – 3mm for summer tires and 4mm for winter tires. What's more, the neat scraper at his feet will reliably remove old stickers and decals from car windows.

## »FINN

Designby Uwe Koch, Obertshausen

### Radiator Key

Dimensions **22x85x52 mm**

Printsize app. **18x14 mm**

Print runs from 100 upwards, ind. Inlay from 250 pcs

 single in polybag with inlay  
30 pcs per carton

**5070**  
PU 30

FINN may look like a fish out of water, but he loves the fresh air when winter arrives. His attraction to metal is due to a magnetic implant that keeps him at the ready whenever needed. The trick: his detachable tail doubles as a key for a radiator's bleeder valve. A single swish and heaters stop whistling and gurgling, and start performing more efficiently. FINN is happy to do his part and help stem the tide of rising energy costs.

### Stool

Dimensions **428x406x416 mm**  
Printsize app. **270x270 mm**  
on request

bulk packed  
24 pcs per carton

BRIQ's big seat makes this stool a very comfortable place to sit, and the square design makes it exceptionally stable. Equally at home indoors and out, BRIQ is stackable – so it saves space as well.

Everybody has dreams and the picture dream globe JUMBO never lets us forget them. Family, friends, upcoming vacation destinations ... this attractive ornament will turn anything that can be photographed into a dream draped in white – all in grand style. And filled with cash or a store voucher, this attractive dream globe will be a coveted last-minute gift.

# PFLEGEHINWEISE INSTRUCTIONS FOR CARE

**koziol Produkte sind spülmaschineneeignet.**

**Und damit auch alles glatt läuft, noch ein paar Tipps extra:**

Sofern es die Größe zulässt, bitte die Produkte vorzugsweise im oberen Spülkorb spülen. So werden Verformungen am besten vermieden. Produkte immer spannungsfrei in die Spülmaschine einlegen. Sollte ein Produkt sich dennoch verformen: beim nächsten Spülen findet es meist in seine ursprüngliche Form zurück, denn Kunststoff hat ein sogenanntes „Gedächtnis“. Stark färbende Lebensmittelreste vor dem Einräumen in die Spülmaschine kurz mit klarem Wasser abspülen. Vermeiden Sie Spülmaschinendeodorants oder Geruchsentferner, da diese zu Verfärbungen führen können. Darüber hinaus auch die Pflegehinweise der jeweiligen Spülmaschine beachten.

**koziol products are dishwasher-safe.**

**But to make sure that everything comes out of the machine looking just like new, here are a few additional tips:**

Where size permits, please wash products in the top rack. This reduces any risk of warping. Give products ample space inside the dishwasher. Do not squeeze them into tight spaces. Products may occasionally warp during washing, but they will usually return to their original shape after the next wash – because plastic has a built-in „memory.“ To avoid contamination or discoloration, we recommend rinsing all dishes with clear water to remove any remaining food before putting them in the dishwasher. Avoid using dishwasher deodorizers or odor neutralizers as these may cause discoloration. And always carefully observe the care instructions provided for your dishwasher.

## The koziol Sustainability Guarantee

„Not facts, instead opinions about facts determine our coexistence.“ Epictetus

### Is it possible to buy plastic today with a good conscience?

It is. You even have to, if you want to be live responsibly and happily. Plastic is the modern material. It has undeniably made our lives easier, more democratic and more hygienic. Without plastic there would be no cars, no airplanes, no mobile phones, no computers, no modern medicine, no prosthetics, no pacemakers, no intensive care units, no science... plastic is the material of the 21st century. Worldwide, there is no material that is just good or just bad and certainly not just sustainable. Even natural materials aren't always the best choice – just think: monoculture, pesticides, high water consumption. With each new product development, the most sustainable material for the use of this product has to be chosen and utilized economically. It's about time to rethink, show more appreciation and a more differentiated consideration to different materials. Because not all plastics are alike.

### The Material

koziol focuses exclusively on thermoplastics, which are 100% recyclable. Thermoplastics are the most environmentally friendly materials on the market. Not only are they food- and dishwasher-safe, production is also done without any harmful additives like formaldehyde or softeners. In the production process of thermoplastics, 90% less energy is used compared to the production of glass, ceramics or aluminum. It is of course no surprise that on many occasions koziol has received scores of "very good" from the German consumer magazine ÖKOTEST. Plastic is too valuable to just throw out. This is why koziol manufactures long-lasting and genius products, for which no other material would be suited. Good design with a clear conscience.

### Design & Function

Already in the design phase, great attention is being paid to sustainability – focus lies on the longevity of the products. And not only because of their unique combination of function and emotion, products made from thermoplastics are used year after year, thus proving their ecological advantage. koziol never makes one-time use products, but rather companions for life. koziol products are robust, lightweight, unbreakable, ergonomic, and suitable especially for children and seniors thanks to their easy handling. Thermoplastics are virtually unbreakable and lightweight, demonstrating a huge advantage over materials like ceramics, glass or metal! Resource conservation is also considered in the design phase: Construction in one-piece, optimized wall thickness, and short cycle times allow for efficient and energy-saving manufacturing.

### Made in Germany

koziol has been manufacturing products since its founding in 1927 exclusively in Erbach/Odenwald in Germany. Design, development, construction, mold making, manufacturing, shipping and administration all under one roof. koziol and its philosophy of manufacturing exclusively in Germany represent a responsible, future-oriented corporate strategy and design with a good conscience. Made in Germany was and remains an essential part of koziol's successful philosophy. koziol has been producing exclusively with green energy since January 1, 2013, saving around 1,276 tonnes of CO<sub>2</sub> annually. German raw material suppliers are preferred and manufacturing under one roof rule out long transport routes. For the logistics of finished goods, koziol cooperates with a worldwide partner company who shares its strict sustainability principles.

### Social Responsibility

koziol manufactures exclusively in Germany, therefore abiding by strict German labor and social laws. The safeguarding of jobs, performance-related pay, opportunities for the acquisition of skills as well as the possibility for parents to work part-time are all natural components of koziol's company culture. Great importance is also placed on apprenticeships – currently seven apprentices are being trained in various departments. This secures a base of well-educated experts and guarantees the company to be sustainable for the future.

## Das koziol Nachhaltigkeitsversprechen

„Nicht Tatsachen, sondern Meinungen über Tatsachen bestimmen das Zusammenleben.“ Epiktet

### Kann man Kunststoff heutzutage denn noch guten Gewissens kaufen?

Man kann. Man muss es sogar, wenn man verantwortungsvoll ist und das Leben liebt. Kunststoff ist das Material der Moderne. Es hat unser Leben einfacher, demokratischer und hygienischer gemacht. Ohne Kunststoff gäbe es kein Auto, kein Flugzeug, kein Handy, keinen Computer, keine moderne Medizin, keine Prothese, keinen Herzschrittmacher, keine Schutzkleidung, keine Intensivstation, keine Wissenschaft - Kunststoff ist das Material des 21. Jahrhunderts. Weltweit gibt es kein Material, dass von vornherein nur gut oder schlecht oder nur nachhaltig ist. Auch Naturmaterialien – Stichworte: Monokultur, Pestizide, Wasserverbrauch - sind nicht generell die bessere Wahl. Bei jeder Produktentwicklung gilt es vielmehr, das für den Einsatzzweck jeweilig nachhaltigste Material auszuwählen und dieses ökonomisch einzusetzen. Es ist an der Zeit, umzudenken und Werkstoffen mehr Wertschätzung und vor allem eine differenzierte Betrachtung entgegen zu bringen. Denn auch Kunststoff ist nicht gleich Kunststoff.

### Das Material

koziol setzt aus Überzeugung ausschließlich auf thermoplastische Kunststoffe, die zu 100% recycelbar sind. Thermoplaste sind die umweltfreundlichsten Materialien, die es auf dem Markt gibt. Sie sind lebensmittelecht, spülmaschinenfest und sie kommen bei der Verarbeitung ohne jegliche Zusätze wie Formaldehyd oder Weichmacher aus. Bei der Verarbeitung von Thermoplasten wird bis 90% weniger Energie verbraucht als beispielsweise bei der Herstellung von Glas, Keramik oder Aluminium. Durch die ressourcenschonende Herstellung ist Kunststoff das derzeit ökologisch und ökonomisch sinnvollste Material auf dem Markt. Das Verbrauchermagazin Ökotest nahm bereits mehrfach koziol Produkte unter seine sehr strenge Lupe und vergab durchgehend ein „Sehr Gut“. Kunststoff ist viel zu wertvoll, um ihn einfach wegzuerwerfen. Deshalb produziert koziol langlebige und geniale Produkte, für die kein anderes Material auch nur annähernd so sinnvoll wäre. Gutes Design mit gutem Gewissen.

### Design & Funktion

Bereits beim Design wird auf Nachhaltigkeit geachtet. Im Vordergrund steht immer die Langlebigkeit der Produkte. Nicht zuletzt durch die einmalige Verbindung aus Funktion und Emotion werden sie gerne über Jahre und Jahrzehnte eingesetzt und zeigen dadurch ihren ökologischen Nutzen.

Es sind niemals Einwegprodukte, sondern langlebige Lebensbegleiter, die für eine sinnvolle Nutzung von Kunststoff stehen. Sie sind robust, leicht, unzerbrechlich, ergonomisch und durch ihr einfaches Handling auch für Kinder und Senioren gut geeignet. Vor allen in puncto Unzerbrechlichkeit und Leichtigkeit ist Kunststoff gegenüber Materialien wie Keramik oder Metall unschlagbar! Auch die ressourcenschonende Herstellung wird bereits beim Design berücksichtigt: Fertigung in einem Stück, optimierte Wandstärken, gute Entformbarkeit und kurze Zykluszeiten ermöglichen eine effiziente und vor allem energiesparende Produktion.

### Made in Germany

koziol produziert seit 1927 ausschließlich am Firmenstandort Erbach/Odenwald in Deutschland. Und das mit einer ungewöhnlichen Fertigungstiefe: Design, Entwicklung, Konstruktion, Formenbau, Produktion, Versand und Administration befinden sich alle unter einem Dach, an einem Ort. koziol steht dank seiner Philosophie, bis heute alle Produkte ausschließlich in Deutschland zu produzieren, für ein verantwortungsvolles, zukunftsgerichtetes Handeln und Design mit gutem Gewissen. Das Thema Nachhaltigkeit war und ist selbstverständlicher Teil der Unternehmensstrategie. Seit dem 1. Januar 2013 produziert koziol ausschließlich mit Ökostrom, dadurch werden jährlich rund 1.276 Tonnen CO<sub>2</sub> eingespart. Beim Einkauf der Materialien werden Anbieter aus Deutschland klar bevorzugt. Ebenso macht die Herstellung unter einem Dach lange Transportwege überflüssig. Für die Logistik der Fertigwaren kooperiert koziol mit einem weltweit agierenden Partnerunternehmen, das ebenfalls nach strengen Nachhaltigkeitsgrundsätzen arbeitet.

### Soziale Verantwortung

koziol arbeitet selbstverständlich nach strengen deutschen Arbeitsschutzrichtlinien und Sozialgesetzen. Die Erhaltung von Arbeitsplätzen, ein leistungsgerechtes Einkommen, die Schaffung von Qualifizierungsmöglichkeiten sowie ein Angebot von Arbeitszeitmodellen für Eltern sind selbstverständlicher Teil der Unternehmenskultur. Dazu zählt natürlich auch das Thema Ausbildung. Zurzeit lernen sieben Auszubildende in verschiedenen Berufsbildern bei koziol. Dies sichert eine Basis an gut ausgebildeten Fachkräften und macht das Unternehmen weiterhin zukunftsfähig.
